EXPERIENCE

Prof. Dr. Şebnem İzmir Güner was born in Istanbul in 1970 and took her first steps in her medical career at Istanbul University Faculty of Medicine. Having successfully completed her undergraduate and medical education there between 1987-1993, Güner received her internal medicine specialty training at Istanbul University Cerrahpaşa Medical Faculty between 1995-2000. Deepening his interest in hematology, Prof. Dr. Güner completed his hematology subspecialty training at Cerrahpaşa Medical Faculty between 2003-2006 and reinforced his expertise in this field.

Prof. Dr. Güner's professional journey started as an internal medicine specialist at Istanbul Training and Research Hospital between 2000-2003. Between 2006 and 2010, he established the Hematology Clinic at the same hospital and served as the responsible physician. Here, he developed innovative approaches in the treatment of patients and made significant contributions in the field of hematology. Between 2010-2016, he established the Hematology Clinic, Therapeutic Apheresis and Adult Bone Marrow Transplantation Center at Medicalpark Bahçelievler Hospital and served as the responsible physician. During this period, he carried out studies that set national and international standards in the field of hematology.

Between 2016-2018, Prof. Dr. Güner assumed similar duties at Şişli Kolon International Hospital, where he was the founder and responsible physician of the Hematology Clinic, Therapeutic Apheresis and Adult Bone Marrow Transplantation Center.

Prof. Dr. Şebnem İzmir Güner has gained a respected place in the field of hematology with her achievements and scientific contributions in her professional life and continues her career as a physician who inspires her patients and colleagues.
