

## Prof. Özenç MİNARECİ, MD

Interventional Radiologist / Neuroradiology

### Medical Interests and Activities

- Examining and diagnosing cranial, spinal, head-neck region diseases by imaging methods.
- Examining vascular diseases of brain, neck and spine with angiography method.
- Treatment of vascular diseases of brain, neck and spine by endovascular methods (closed surgery).
- Treatment of cerebrovascular aneurysms (in patients with or without cerebral hemorrhage)
- Treatment of cerebrovascular stenosis with stent method.
- Treatment of cerebrovascular diseases like fistule and arteriovenous malformation with embolisation method.
- Stent application in stenosis of neck veins (by using umbrella method).
- Reducing the operation risk by blocking the veins which are feeding the tumor before open-surgeries in some tumor and head-neck area operations.
- Embolisation treatment in birthmark-hemangioma and diseases like vascular malformations.
- Endovascular treatment of vascular diseases at spinal cord and membrane
- Dissolving the thrombus with urgent intervention in patients with stroke in order to provide the brain to overcome the situation with less damage as possible.
- Endovascular treatment of vasospasm in patients with cerebral hemorrhage.
- In uncontrolled epistaxis blocking the nasal vein by reaching it with angiography method.

### Education and Experience

- 1997 - Professor
- 1991 - Associate Professor
- 1994 - Currently Head of Neuroradiology Department of Istanbul Medical Faculty
- Zurich University Neuroradiology Institue - He worked in Prof. A. Valavanis's Clinic
- USA New York Beth Israil Hospital - He worked in Prof. Alex Berenstein's Clinic
- 1989 - He started working in the establishment committee of Neuroradiology Department.
- 1987-1989 - He worked as Teaching Assistant in Marmara University Medical Faculty Radiology Department
- He started in Marmara University Medical Faculty Radiology Department in 1986 and became Radiology Specialist in 1987
- 1984 - Radiology Assistant in İstanbul Haydarpaşa Numune Hospital
- 1982 - İstanbul University İstanbul Medical Faculty
