

## Prof. MD. Uğur BOYLU

### Urology

#### Medical Interests

- Robotic Surgery: Treatment of all urological diseases with robotic surgery
- Urological Oncology: Treatment of urological cancers, especially prostate cancer, kidney cancer, bladder cancer and testicular cancer with robotic surgery
- Endourology: Minimally invasive endourological treatments of diseases such as urinary system stone diseases such as kidney, ureter and bladder stones and ureteropelvic junction (UPJ) stenosis.

H-Index: 18

#### Education

- İstanbul Boys High School '94
- Medical Doctor: İstanbul University İstanbul Faculty of Medicine (1995-2001)
- Urology Specialization Training: Şişli Etfal Training and Research Hospital (2001-2005)
- Robotics, Endourology and Laparoscopic Surgery Fellowship: Tulane University School of Medicine Department of Urology, New Orleans, Louisiana, USA (2008-2010)

#### Experiences

- Medical Doctor: İstanbul University İstanbul Faculty of Medicine (1995-2001)
- Urology Specialization Training: Şişli Etfal Training and Research Hospital (2001-2005)
- Robotics, Endourology and Laparoscopic Surgery Fellowship: Tulane University School of Medicine Department of Urology, New Orleans, Louisiana, USA (2008-2010)

#### Membership

- Turkish Urology Association
- Endourology Society
- Andrology Association
- İstanbul Medical Chamber

#### Publications

- 70 domestic and international scientific articles (within the scope of SCI, SCIE and ESCI)
- 193 national and international congress papers
- 19 English and Turkish book chapters
- 10 Urology Medical Specialization Thesis Consultancy

**Best First Paper Award:**
